However, only corporations in the affiliated group that have gross income from sources within the State that is subject to Arkansas income tax are eligible to file consolidated income tax returns in Arkansas. An Arkansas consolidated group with its members having business activity only within Arkansas must check the box for Filing Status 4.

In computing Arkansas consolidated taxable income or loss to which the tax rate is applied, the separate net income or loss of each corporation that is entitled to be included in the affiliated group will be included in the consolidated net income or loss to the extent that its net income or loss is separately apportioned or allocated to Arkansas. All corporations in the affiliated group that are eligible to file an Arkansas Consolidated Corporation Income Tax Return must consent to, and join in, the filing of the return prior to the last day for filing. The filing of the consolidated return will be considered as consent of each eligible corporation in the affiliated group.

Corporations with Filing Status 4 (Consolidated Return) must complete a separate Form AR1100CT reflecting taxable income before intercompany eliminations and adjustments, and Schedule A, if multistate, for each member with gross income from sources within Arkansas. Each member's separate net income or loss must be consolidated on a group Form AR1100CT beginning on Line 32. Schedule A should not be completed for the consolidated group, but must be included for signature by a corporate officer. A complete copy of the Federal return must be attached. <u>A schedule listing each intercompany elimination and adjustment, identifying the entity by FEIN to which it applies must be submitted if this information is not clearly shown on the Federal return.</u>

Arkansas extension(s) must be attached to the Arkansas income tax return. If the Director determines that a corporation's estimated quarterly Arkansas income tax liability exceeds \$20,000.00, the corporation is required to pay the estimated quarterly income tax payments due by electronic funds transfer (EFT). The EFT must be made no later than the day before each quarterly due date. If the corporation timely pays the estimated quarterly income tax payments by EFT, the corporation is not required to file a quarterly estimated income tax voucher. The Director's determination will be based on the corporation's average quarterly liability for the preceding tax year. Each corporation participating in EFT payments must complete an Arkansas EFT-CT Authorization form upon the State's request. Extension payments and payments with returns **may not** be made by EFT.

#### **Accounting Methods**

A taxpayer must calculate his Arkansas income tax liability using the same accounting method for Arkansas income tax purposes as used for Federal income tax purposes. Eligible businesses which signed a financial incentive agreement with the Department of Economic Development prior to March 3, 2003 will continue to be provided the benefits of those programs. Act 1296 of 2005 makes technical corrections by amending ACA 15-4-2705, changing the payroll thresholds in tier counties for new full-time permanent employees hired within the first 60 months following the date of the approved incentive agreement. The income tax credit amount may vary according to established guidelines. The amount of income tax credit that may be taken in any tax year shall not exceed the Arkansas income tax liability resulting from the project plant or facility. The project plant or facility's income tax liability is to be computed by adding the sales, payroll and property factors of the plant or

This percentage is multiplied by the corporation's Arkansas income tax liability to arrive at the income tax credit available to offset the income tax liability arising from the project as referenced in the financial incentive plan. #### **Specific Instructions** For Taxpayers with Income from Sources Within and Without the State

Multistate corporations should complete lines 32-48 of page 1, and Schedule A, page 2 of Form AR1100CT. Multistate corporations should not complete lines 9-31 of Form AR1100CT. If all apportionment factors are 100%, the corporation is not multistate and should file as a corporation operating only in Arkansas.

In general, taxpayers with income derived from activities both within and without the State are required to allocate and apportion the net income under the following provision.

Business and Nonbusiness Income Defined-ACA 26-51-701(a) defined "Business Income" as income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's trade or business operations. In essence, all income which arises from the conduct of trade or business operations of a taxpayer is business income. Income of any type or class and from any source is business income if it arises from transactions and activity occurring in the regular course of a trade or business. In general, all transactions and activities of the taxpayer's economic enterprise as a whole constitute the taxpayer's trade or business and will be considered "Business Income", unless otherwise excluded by Arkansas Iaw. Nonbusiness income means all income other than business income.

#### **Unitary Determination of Intangible Income:**

Interest, dividends [less than 80% directly owned], rents, royalties, and gains and losses from multistate corporations are apportionable to Arkansas if a unitary business relationship exists between the intangible income and the State of Arkansas. The U.S. Supreme Court has identified certain factors of profitability such as functional integration, centralization of management, and economies of scale and summarized these factors in the use of the term "flow of value" to indicate the contribution made to the overall business enterprise. Generally, a unitary business relationship will exist when an activity conducted in one state benefits and is benefited by an activity conducted in another state.

Arkansas will not accept returns filed on a unitary combined report basis.

#### **Apportionment Formula:**

For tax years beginning on or after January 1, 1995 (for all multistate corporations except financial institutions, airlines, bus lines, truckers, and private railcar operators) business income is to be apportioned to this State by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor, plus double the sales factor, and the denominator of which is 4. If a taxpayer does not have all 4 factors, the denominator shall be the same as the number of entries other than zero that apply to the total (everywhere) amounts of the property, payroll and sales factors. When double weighted, the sales factor counts as 2. For tax years beginning prior to January 1, 1995, the single weighted sales factor must be used. Construction companies, pipelines, publishing companies, railroads, and TV and radio broadcasters must utilize the double weighted sales factor apportionment method with factor modifications. Requirements for apportionment formulas of the businesses listed in this paragraph (except for financial institutions) are contained in the Arkansas Corporation Income Tax Regulations which may be obtained from:

> Department of Finance and Administration Corporation Income Tax Section P. O. Box 919 Little Rock, AR 72203

#### or download from www.Arkansas.gov/dfa/

#### **Property Factor:**

The property factor is a fraction, the numerator of which is the average value of real and tangible personal property, including inventories, owned by the taxpayer means the average of the original cost of the property at the beginning and ending of the tax period. Property rented by the taxpayer is valued at 8 times the net annual rental rate.

#### **Payroll Factor:**

The payroll factor is a fraction, the numerator of which is the total amount paid in this State during the tax period by the taxpayer for compensation, and the denominator of which is the total compensation paid everywhere during the tax period. Compensation is paid in this State if:

- (A) The individual's service is performed entirely within the State, or
- (B) The individual's service is performed both within and without the State, but the service performed without the State is incidental to the individual's service within the State, or
- (C) Some of the service is performed in the State, and
  - The base of operations or, if there is no base of operations, the place from which the service is directed or controlled, is in the State, or
  - (2) The base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this State.

#### **Sales Factor:**

The sales factor is a fraction, the numerator of which is the gross sales of the taxpayer in this State during the tax period, and the denominator of which is the gross sales of the taxpayer everywhere during the tax period.

Sales of tangible personal property are in this State if:

- (A) The property is delivered or shipped to a purchaser, other than the United States Government, within this State regardless of the f.o.b. point or other conditions of the sale, or
- (B) The property is shipped from an office, store, warehouse, factory, or other place of storage in this State, and
  - (1) the purchaser is the United States Government, or
  - (2) the taxpayer is not taxable in the state of the purchaser.

Sales, other than sales of tangible personal property, are in this State if:

- (A) The income producing activity is performed in this State, or
- (B) The income producing activity is performed both within and without the State in which event the income allocable to this State shall be the percentage that is used in the formula for apportioning business income to this State.

Part B, Line 3.g. of Schedule A (Page 2 of AR1100CT) reflects the double weighting of the sales factor.

#### **Allocated Income:**

#### **Partnership Income:**

ACA 4-32-1313 and ACA 26-51-802 are amended by Act 965 of 2003 to adopt the federal "check the box" rules to make it consistent with Federal law regarding the income taxation of Limited Liability Companies and Partnerships. The change is effective for tax years beginning on or after January 1, 2003.

Subject to the provisions of ACA 26-51-202(e), all partnership income from activities within this State that is reflected on a partnership return shall be allocated to this State. Submit appropriate schedule [ACA 26-51-802 (b)].

#### **Nonbusiness Income:**

The following items of income to the extent that they do not constitute business income are to be allocated to this State.

#### 1. Rents & Royalties:

- A) Net rents and royalties from real property located in this State.
- B) Net rents and royalties from tangible personal property.

- 1) If and to the extent that the property is used in this State, or
- In their entirety, if the commercial domicile is in this State and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.

The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the State during the rental or royalty period in the taxable year; and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property is located at the time the rental or royalty payer obtained possession.

#### 2. Gains and Losses:

Gains and losses from sales of assets:

- A) Sales of real property located in this State.
- B) Sales of tangible personal property.
  - 1) The property had a situs in this State at the time of sale, or
  - 2) The taxpayer's commercial domicile is in this State, or
  - 3) The property has been included in depreciation which has been allocated to this State; in which event gains or losses on such sales shall be allocated on the percentage that is used in the formula for allocating income to this State.
- C) Sales of intangible personal property if the taxpayer's commercial domicile is in this State.

#### 3. Interest and Dividends:

Interest and dividends if the taxpayer's commercial domicile is in this State.

#### 4. Patent and Copyright Royalties:

- A) If and to the extent that the patent or copyright is utilized by the taxpayer in this State, or
- B) If and to the extent that the patent or copyright is utilized by the taxpayer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this State.

A copyright is utilized in a state to the extent that printing or other publications originate in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

#### **Change of Method:**

Prior Approval Required Before Deviation From the Allocation and Apportionment Method: If the allocation and apportionment provisions as set out above do not fairly represent the extent of the taxpayer's business activity in this State, the taxpayer may petition for, or the Commissioner of Revenue, Department of Finance and Administration may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

- A) Separate accounting;
- B) The exclusion of any one or more factors;
- C) The inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this State, or
- D) The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

To "petition for" shall mean a formal written request submitted and approved prior to the filing of a return.

# Apportionment of Intragroup Intangible Licensing Transactions:

Regulation 1996-3 clarifies the calculation method for determining the sales factor in apportioning business income received from intragroup intangible licensing transactions. This regulation applies to a corporation that is a passive intangible holding company and receives business income from intragroup intangible licensing transactions with one or more members of the same group. Also, at least one of the other members of the same group from which the business income is received by the taxpayer must be subject to the Arkansas Income Tax Act.

The sales factor for intragroup intangible licensing transactions is modified as follows:

- If the licensing agreement states a method of measuring the activity between the licensor and licensee, the numerator of the sales factor is the amount of the sales or receipts received as provided in the licensing agreement.
- If the licensing agreement does not state a method of measuring the activity between the licensor and licensee, the measuring activity will be based on one of the following:
  - a. If the licensee's activity generates sales or receipts, the numerator of the sales factor will be the percentage of sales in Arkansas compared to the licensee's total sales, or

- b. If the licensee's activity does not generate sales or receipts, the numerator of the sales factor will be the percentage of units produced or cost of units produced in Arkansas compared to the licensee's total units produced or total cost of units produced, or
- c. If neither of the above methods accurately represent the licensor's business activity in Arkansas, the licensor may petition for or the Director may require another method.
- If the licensing agreement states a method of measuring the activity between the licensor and licensee in addition to a specifically stated dollar amount, the numerator of the sales factor will be the stated measuring activity plus the stated dollar amount attributable to Arkansas.

This Regulation modifies the sales factor for intragroup intangible licensing transactions only, and business income from any other source should be apportioned in accordance with ACA 26-51-709.

If a passive intangible holding company meets the above characteristics and the licensee elects to forego the intragoup intangible licensing transactions deduction, the passive intangible holding company will not be required to report the business income received from intragroup intangible licensing transactions for Arkansas income tax purposes. The licensee's election to forego the deduction will be binding unless the licensee and the passive intangible holding company submit a written petition to change the election to the Director, and the Director approves the change.

# **FINANCIAL INSTITUTIONS**

In general all state and national banks, savings and loan, building and loan associations or any other entity operating as financial institutions are to be taxed under existing law. For a complete definition of "financial institution" refer to Arkansas Code Annotated (ACA) 26-51-1402.

#### Who must file:

- A financial institution having its principal office in this State shall be taxed as a business corporation organized and existing under the laws of this State, or
- A financial institution having its principal office outside this State but doing business in this State shall be taxed as a foreign business corporation doing business in this State.

This is not intended to recognize the right of a foreign financial institution to conduct any business in this State except to the extent and under the conditions permitted by any acts or any other now existing applicable laws of this State.

ACA 26-51-702 requires financial organizations having business income from business activity both within and without the State of Arkansas to apportion their net income.

ACA 26-51-426 adopted Internal Revenue Code Sections 582, 585, and 593 regarding bad debts of financial institutions.

ACA 26-51-1401 et seq. (effective for taxable years beginning on or after January 1, 1996) adopted the Multistate Tax Commission regulation regarding apportionment and allocation of net income of financial institutions. It requires that a financial institution whose business activity is taxable both within and without this State to allocate and apportion its net income to this State. All business income, income which is includable in the apportionable income tax base, shall be apportioned to this State by multiplying such income by the apportionment percentage. The apportionment percentage is determined by adding the receipts factor, property factor, and payroll factor and dividing the sum by 3.

#### **Property Factor:**

Generally, the property factor is a fraction, the numerator of which is the average value of real property and tangible personal property rented to the taxpayer that is located or used within this State during the taxable year, the average value of the taxpayer's real and tangible personal property owned that is located or used within this State during the taxable year, and the average value of the taxpayer's loans and credit card receivables that are located within this State during the taxable year, and the average value of all such property located or used within and without this State during the taxable year. (Refer to ACA 26-51-1404).

#### **Payroll Factor:**

Generally, the payroll factor is a fraction, the numerator of which is the total amount paid in this State during the taxable year by the taxpayer for compensation and the denominator of which is the total compensation paid both within and without the State during the taxable year. The payroll factor shall include only that compensation which is included in the computation of the apportionable income tax base for the taxable year. (Refer to ACA 26-51-1405).

#### **Receipts Factor:**

Generally, the receipts factor is a fraction, the numerator of which is the receipts of the taxpayer in this State during the taxable year and the denominator of which is the receipts of the taxpayer within and without this State during the taxable year. The method of calculating receipts for purposes of the denominator is the same as the method used in determining receipts for purposes of the numerator. The receipts factor shall include only those receipts described herein which constitute the business income and are included in the computation of the apportionable income base for the taxable year. Financial institutions cannot double weight the receipts factor. (Refer to ACA 26-51-1403).

### **Exempt Organizations**

Act 261 of 2005 requires corporations to have elected Subchapter S treatment for federal tax purposes if electing Subchapter S treatment for Arkansas income tax purposes for the same tax year. The election may be made only if the corporation meets all of the following requirements:
